

Additional Tabs Customizations Requirements:

On the Product Detail Page, it would simply display by having tabs below the main product image:

KUNG FU PANDA II 

[Click Here for Larger Image](#) Optional Space here, specified in CSS

Description	Reviews	Cust1	Cust2
Cust3	Cust4	Cust5	Cust6

Rows would be created, depending on # of tabs

Content will display here

On the Admin Side, Default tabs could be added by product type:

[Dashboard](#) > [Products](#) > **Products Types**

Products Types

ID ▲ ▼	Type Name ▲ ▼			
9	Downloadable Movie	Edit Product Type	Default Options	Predefined Specification Default Tabs ←

[New Product Type](#)

[Export All](#) | [Export Filtered \(1\)](#) | [Import Products](#) | [Import Products Downloadable](#) | [Google Merchant Center Export](#) | [Google Merchant Center Filtered \(1\)](#)

▼

[Dashboard](#) > [Products](#) > [Products & Categories](#) > [Kung Fu Panda II](#) > **Additional Tabs** ← [Ability to add per product \(in addition to type\)](#)

Additional Tabs

No Additional Tabs Added

[Add](#) | [Delete Selected](#) | [Delete All](#) ← [Add/Remove Tab Options](#)

When adding, the tab should have the options to be shown for permissions:

- By Site
- By User Type
- By Country

It would be important to have the following options:

- Images
- Downloads
 - Users who've purchased
 - All Users
 - Logged on Users
- Videos (stream)
- Text box w/ WYSIWYG editor
